

**For quality protection, “first responders”
depend on Ranch Hand products from Williston Tire & Auto**

Jennifer Tozzo resides in a small town outside Gainesville, FL. For over 30-years she has been a first responder serving with the local fire department. Even more significant is the fact that Jennifer is 100% disabled resulting from prior service with the U.S. Navy. On and off the job, she and her service dog need maximum protection.

Jennifer lives in a rural, heavily wooded area where there are lots of vehicle deer strikes. Vehicles have even hit bears, she recalled. "I am blessed and grateful to have met Alan Suggs of Williston Tire & Auto. Without me even asking him, Alan offered to install a Ranch Hand Legend Grille Guard on my 2015 Toyota Tacoma," Jennifer said.

All across the USA, first responders have relied on Ranch Hand Grille Guards to provide protection for their vehicles. Like Jennifer, owners of personal vehicles -- cars, trucks and SUVs -- also depend on Ranch Hand accessories to provide safety and durability.

"Williston Tire & Auto believes in the quality and protection of Ranch Hand products and we support our first responders and people in the military. I am honored to have partnered with Ranch Hand and Jennifer," Alan Suggs said.
