

Brandon Noska Joins Ranch Hand As Director of Engineering

Brandon Noska has joined Ranch Hand as Director of Engineering. Brandon has extensive experience in bringing new technologies and products to market for the energy, aerospace, electronics and lighting industries.

Brandon is a multi-skilled professional with over 16 years of experience in mechanical design, product development and R&D. His versatility and talents have allowed him to take on roles in engineering, marketing and sales over the course of his career. His background includes working with multifunctional teams and customers domestically and worldwide.

Brandon's previous experience spans a wide range of positions including Application Engineering/Technical Marketing Manager, Thermal/Research Engineer, Design Engineer and Management Development Engineer. Brandon has secured four patents with several more pending.

Brandon has a Bachelor of Science in Mechanical Engineering from The University of Texas at Austin. He and his wife, Jennifer, have three children, ages 3, 7 and 11. In his spare time he enjoys outdoor activities like golf, fishing and hunting.
